ACRYLIC SHELL COLORS

Almost everything on a hot tub can be repaired or replaced, except for the shell. That's why Coast Spas shells are the toughest and most durable available.

Our acrylic shells are UV resistant, backed with multiple layers of Owens Corning Fiberglass and re-enforced with steel angle iron, to endure the most extreme environments.

- 83% faster & 20% more efficient than skim filtration
- The largest filter available on any spa (175 sq.ft.)
- No dirty filter sitting in the spa water
- Captured contaminants will not re-enter the spa

Color match your acrylic shell to your cabinet and cover by building your spa at www.coastspas.com.
