

WAVE

Robotic Pool Cleaners

maytronics  
Exceptional Pool  
Experience

# DOLPHIN WAVE

**Recommended for Olympic-sized and large commercial pools - from 25 m (84 ft) up to water park large size pools.**

**The most cost-effective machine on the market.**

## Dolphin Wave features and benefits:

### Scanning:

- Intelligent navigation system ensures thorough coverage of every pool type and shape in minimum time.

### Brushing:

- Active brushing system with high speed rotating brushes specially designed to brush, scrub and remove dirt and algae from the pool floor, slopes, edges and corners.

### Filtration:

- High filtration capacity and super suction power of 40 m<sup>3</sup>/ hr,
- User friendly top access to two large filter bags.
- 3 types of filtration options covers all cleaning demand from spring cleaning to normal ongoing maintenance.

### MMI (Maytronics Machine Interface):

- An interactive state-of-the-art digital MMI user-friendly control panel enabling full control of: Cycle time, Operation delay, Scanning mode, Full filter bag indication and data download option for remote support (USB port).
- Remote control for manual manoeuvring.
- Self-entry and submersion into the pool.

### Safety:

- Overload-detection mechanism for self protection. Designed for long-lasting, safe operation at a low voltage of 38 volts.

### Robustness:

- Robust, heavy-duty design to meet the tough demands of daily use in commercial pools.

### Warranty:

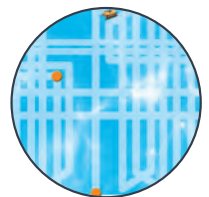

- Full 2-year "bumper-to-bumper" warranty, including preventive maintenance.

## Dolphin Wave Specifications:

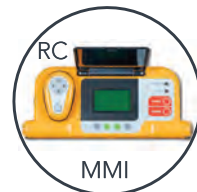

Cycle time	1-8 hours	3h for 25 m pools	5h for 50 m pools
Suction rate		40 m <sup>3</sup> / per hour	
Suction width		700 mm	
Cable length		43 m	
Unit weight		25 Kg	
Unit dimensions		W 70 x L 58 x H 30 cm	

Active Brushing

Systematic Navigation Scanning

Digital Control Panel
